1. COMPANY OVERVIEW

1. Company Overview

1.1 About CubeX Enterprises

CubeX Enterprises is an institutional trading technology company providing white-label brokerage infrastructure, multi-asset liquidity aggregation, and end-to-end broker enablement solutions across the Asia-Pacific region. Operating under the parent entity GrowMore Solutions (Pvt) Ltd, CubeX serves retail brokers, prop trading firms, family offices, and institutional clients with a suite of fully customisable trading platform components.

Founded with the mission of democratising access to institutional-grade technology, CubeX delivers the same execution quality, analytics, and compliance tooling traditionally reserved for tier-1 banks and prime brokerages — packaged as a scalable SaaS platform accessible to any regulated entity.

1.2 Contact & Location Details

COMPANY NAME	CubeX Enterprises (a brand of GrowMore Solutions Pvt Ltd)
HEAD OFFICE	3rd Floor, 3A-1/3, 2nd Lane, Meegha Watta Road, Delkanda, Nugegoda, Sri Lanka
TELEPHONE	+94 11 2 804 924 / +94 11 2 804 925
EMAIL	info@growmoresolutions.lk
WEBSITE	www.growmoresolutions.lk
SUPPORT HOURS	Technical Support: Mon–Sat 08:00–20:00 (GMT+5:30) Customer Service: Mon–Sat 08:00–20:00 (GMT+5:30) Accounting: Mon–Thu 09:00–17:00 (GMT+5:30) Human Resource: Mon–Fri 09:00–18:00 (GMT+5:30)
EMERGENCY LINE	+94 11 2 804 924 Ext 2 (24/7 Technical Escalation)

1.3 Organisational Structure

Department	Extension	Responsibility	Hours (GMT+5:30)
Human Resource	Ext 1	Careers, hiring, HR policies, staff management	Mon–Fri 09:00–18:00
Technical Support	Ext 2	Platform issues, API integration, infrastructure	Mon–Sat 08:00–20:00
Accounting	Ext 3	Billing, invoices, licensing fees, refunds	Mon–Thu 09:00–17:00
Customer Service	Ext 4	Onboarding, general queries, account management	Mon–Sat 08:00–20:00

2. PLATFORM OVERVIEW

2. Platform Overview

2.1 Platform Architecture

The CubeX platform is built on a microservices architecture deployed across geographically redundant data centres. Core components include the Order Management System (OMS), Risk Engine, Liquidity Aggregator, Trade Reporting Module, and Client Portal — all communicating over encrypted internal messaging buses with sub-millisecond latency.

Component	Technology	Role
Order Management System	C++ / FIX Protocol	Order routing, matching, and lifecycle management
Risk Engine	Java / Apache Kafka	Real-time P&L, margin, and exposure monitoring
Liquidity Aggregator	Python / gRPC	Price aggregation from 15+ LP feeds
Client Portal	React / Next.js	Web-based dashboard for brokers and traders
Reporting Module	PostgreSQL / S3	Regulatory and internal trade reporting
Chatbot Layer	REST / WebSocket	AI chatbot integration for client support

2.2 Supported Asset Classes

Asset Class	Instruments	No. of Symbols	Execution Model
Forex (FX)	Major, Minor, Exotic	70+	STP / ECN
CFDs	Indices, Stocks	200+	Market Making / STP
Cryptocurrencies	Spot & Perpetual	50+	ECN
Commodities	Metals, Energy, Agri	25+	STP
Equities	Global Stocks	500+	DMA
Fixed Income	Bonds, Treasuries	30+	RFQ

2.3 Key Technology Stack

- **Execution Latency:** < 1ms order acknowledgement (co-located infrastructure)
- **Uptime SLA:** 99.9% guaranteed with N+1 redundancy across all critical components
- **Security:** 256-bit AES encryption at rest, TLS 1.3 in transit, ISO 27001 certified
- **API Protocols:** FIX 4.4, FIX 5.0, REST (JSON), WebSocket (streaming prices/trades)
- **Data Centres:** Equinix LD4 (London), NY5 (New York), TY3 (Tokyo) — with DR in SG1 (Singapore)
- **Backup & Recovery:** RPO < 5 minutes, RTO < 15 minutes

2.4 System Requirements

Component	Minimum	Recommended
Operating System	Windows 10 / macOS 11	Windows 11 / macOS 14 / Ubuntu 22.04
RAM	4 GB	16 GB
CPU	Dual-core 2.0 GHz	Octa-core 3.5 GHz
Network	10 Mbps broadband	100 Mbps dedicated leased line
Browser (Web App)	Chrome 110 / Firefox 115	Chrome latest / Edge latest
Mobile	iOS 14 / Android 10	iOS 17 / Android 14

3. TRADING PRODUCTS & INSTRUMENTS

3. Trading Products & Instruments

3.1 Forex (FX) Trading

CubeX provides access to over 70 currency pairs spanning Major, Minor, and Exotic categories. FX trading is available 24 hours a day, 5 days a week (Sunday 22:00 UTC — Friday 22:00 UTC). All FX instruments are traded as spot contracts with T+2 settlement for physical delivery or automatically rolled for retail CFD clients.

Category	Examples	Typical Spread	Min Lot Size
Majors	EUR/USD, GBP/USD, USD/JPY, USD/CHF	0.1 – 0.6 pips	0.01 lots
Minors	EUR/GBP, AUD/NZD, GBP/CAD, EUR/CHF	0.5 – 1.5 pips	0.01 lots
Exotics	USD/TRY, EUR/ZAR, USD/MXN, GBP/SGD	5.0 – 25.0 pips	0.01 lots

3.2 Contracts for Difference (CFDs)

CFDs allow clients to speculate on price movements without owning the underlying asset. CubeX offers CFDs on indices, equities, commodities, and crypto. All CFD positions attract overnight financing charges (swap rates) when held past the daily cut-off.

Category	Examples	Leverage (max)	Margin Req.
Stock CFDs	AAPL, TSLA, AMZN, GOOGL, MSFT	1:20	5%
Index CFDs	US30, NAS100, UK100, DE40, JP225	1:50	2%
Commodity CFDs	XAU/USD, CL1!, NG1!, XAG/USD	1:20	5%
Crypto CFDs	BTC/USD, ETH/USD, SOL/USD	1:5	20%

3.3 Cryptocurrency Trading

Cryptocurrency spot and perpetual contracts are available with deep liquidity aggregated from leading crypto exchanges. No expiry for perpetual contracts. Funding rates apply every 8 hours.

Symbol	Type	Min Tick	Max Leverage	Funding Interval
BTC/USD	Spot + Perp	\$0.10	1:5	8 hours
ETH/USD	Spot + Perp	\$0.01	1:5	8 hours
SOL/USD	Spot + Perp	\$0.001	1:3	8 hours
BNB/USD	Spot	\$0.01	1:3	N/A

Symbol	Type	Min Tick	Max Leverage	Funding Interval
XRP/USD	Spot + Perp	\$0.0001	1:3	8 hours

4. ACCOUNT TYPES & STRUCTURES

4. Account Types & Structures

4.1 Account Tiers

CubeX offers four account tiers tailored to different brokerage sizes and trading volumes. All accounts receive full platform access; higher tiers include dedicated account managers, tighter spreads, and priority support.

Feature	Starter	Professional	Prime	Institutional
Min. Deposit	\$500	\$5,000	\$25,000	\$100,000+
Max Leverage	1:100	1:200	1:400	1:500
Spread Type	Standard	Raw	Raw	Raw + Rebate
Commission	None	\$3/lot	\$2/lot	Custom
Account Manager	Shared	Dedicated	Senior	Executive
Support Priority	Standard	Priority	Priority	24/7 Hotline
API Access	REST only	REST + FIX	Full Suite	Full Suite
White-Label	No	No	Yes	Yes
Custom Instruments	No	No	Yes	Yes
Onboarding Time	1 day	2–3 days	3–5 days	Custom

4.2 Leverage & Margin

Leverage is the ratio of trade size to required margin. Higher leverage amplifies both gains and losses. CubeX enforces dynamic margin requirements based on position size and market volatility.

Instrument	Standard Leverage	Margin Req.	Margin Call	Stop-Out
FX Majors	1:400	0.25%	50%	20%
FX Minors	1:200	0.5%	50%	20%
FX Exotics	1:100	1.0%	80%	30%
Index CFDs	1:50	2.0%	80%	30%
Stock CFDs	1:20	5.0%	80%	30%
Gold (XAU/USD)	1:20	5.0%	80%	30%
Crypto (BTC)	1:5	20.0%	100%	50%

5. ORDER TYPES & EXECUTION

5. Order Types & Execution

5.1 Order Types Reference

Order Type	Description	Use Case
Market Order	Executes immediately at best available price	Entering/exiting quickly
Limit Order	Executes only at specified price or better	Precise entry/exit points
Stop Order	Triggers a market order when price hits stop level	Breakout trading
Stop Limit	Triggers a limit order at the stop price	Controlled breakout entries
Trailing Stop	Stop level moves with price by defined distance	Locking in profits
OCO (One Cancels Other)	Pair of orders; one cancels when other executes	Bracket trading strategies
If Done	Secondary order activates when primary fills	Conditional order chains
Good Till Cancelled	Order remains active until manually cancelled	Long-term pending orders
Good Till Date	Order active until specified date/time	Event-based trading
Fill or Kill	Must fill entire quantity immediately or cancel	Large institutional orders
Immediate or Cancel	Fills what it can immediately, cancels remainder	Partial fill tolerance

5.2 Execution Models

STP (Straight-Through Processing)

Orders are passed directly to liquidity providers without a dealing desk. No re-quotes; prices are from the interbank market. Best for volatile conditions.

ECN (Electronic Communications Network)

Orders are matched in a pool of liquidity providers, other brokers, and institutional traders. Extremely tight spreads; commission-based pricing.

Market Making

The broker acts as the counterparty to client trades. Fixed spreads available. Suitable for low-volatility instruments and retail accounts.

DMA (Direct Market Access)

For equity CFDs; orders are routed directly to the exchange order book. Full market depth visibility with level 2 data.

6. FEES, SPREADS & COMMISSIONS

6. Fees, Spreads & Commissions

6.1 Spread Schedule (Indicative — Subject to Market Conditions)

Instrument	Raw Spread	Standard Spread	Peak Hours	Off-Hours
EUR/USD	0.0 pip	1.0 pip	0.1–0.3 pips	0.5–1.0 pips
GBP/USD	0.0 pip	1.2 pips	0.2–0.5 pips	0.8–1.5 pips
USD/JPY	0.0 pip	1.0 pip	0.1–0.4 pips	0.5–1.2 pips
XAU/USD	0.10	0.30	0.10–0.20	0.20–0.40
BTC/USD	\$5	\$20	\$5–\$10	\$15–\$30
US30	0.5 pts	1.5 pts	0.5–1.0 pts	1.0–2.5 pts
NAS100	0.5 pts	1.5 pts	0.5–1.2 pts	1.2–2.5 pts

6.2 Commission Structure

Account Tier	Instrument	Commission (Per Lot Round Turn)	Notes
Professional	FX / Metals	\$6.00	Charged on open + close
Professional	Indices	\$2.00	Per contract
Professional	Crypto	0.05% of notional	Percentage-based
Prime	FX / Metals	\$4.00	Volume discount available
Prime	Indices	\$1.50	Per contract
Institutional	All	Negotiated	Call for bespoke pricing

6.3 Swap / Rollover Rates

Positions held overnight are subject to swap (rollover) charges or credits based on the interest rate differential between the two currencies in a pair. Swaps are applied at 22:00 GMT (server time). On Wednesdays, triple swaps apply to cover the weekend period.

Instrument	Long Swap (pips/lot)	Short Swap (pips/lot)	Triple Day
EUR/USD	-0.52	+0.13	Wednesday
GBP/USD	-0.78	+0.32	Wednesday
USD/JPY	+0.15	-0.48	Wednesday
XAU/USD	-2.30	-1.80	Wednesday
BTC/USD	-5.00% p.a.	-5.00% p.a.	Daily

6.4 Deposit & Withdrawal Fees

Method	Currency	Min Amount	Max Amount	Fee	Processing Time
Bank Wire	USD/EUR	\$500	Unlimited	Free	1–3 business days
Credit/Debit Card	USD/EUR	\$50	\$10,000	1.5%	Instant
USDT (TRC-20)	USDT	\$100	Unlimited	Network fee	15–30 minutes
USDT (ERC-20)	USDT	\$100	Unlimited	Network fee	5–15 minutes
Bitcoin	BTC	0.001 BTC	Unlimited	Network fee	1–3 confirmations
Local Bank (LK)	LKR	LKR 10,000	LKR 500,000	Free	Same day

7. RISK MANAGEMENT

7. Risk Management

7.1 Margin Call & Stop-Out Levels

CubeX operates a two-stage margin management system. When account equity falls to the **Margin Call level**, the client receives an automated alert. If equity continues to fall to the **Stop-Out level**, positions are automatically closed from the largest loss first to protect the account from negative equity.

Margin Level Formula
$$\text{Margin Level (\%)} = (\text{Equity} / \text{Used Margin}) \times 100$$

Equity = Balance + Floating P&L;

Example: Balance \$1,000, Used Margin \$200, Floating P&L; -\$600

$$\text{Margin Level} = (\$1,000 - \$600) / \$200 \times 100 = 200\%$$

7.2 Negative Balance Protection

All CubeX retail client accounts are protected against negative balances. If a Stop-Out event results in account equity going below zero (due to extreme slippage in fast markets), CubeX will reset the account balance to zero at no charge to the client. This protection does not apply to professional or institutional accounts unless explicitly stated.

7.3 Risk Controls & Alerts

- Email and SMS alerts at configurable margin thresholds (e.g., 200%, 150%, 100%)
- Daily loss limit controls configurable by broker administrators
- Maximum open position limits per instrument and overall
- IP-based login anomaly detection and account lock on suspicious activity
- Real-time exposure dashboard for broker risk desks
- Automatic hedging triggers for correlated position risk

7.4 Hedging Policy

CubeX supports both full and partial hedging. Clients may hold simultaneous long and short positions in the same instrument. Both legs attract margin and swap independently. Hedged positions do not offset margin requirements unless netting mode is enabled by the broker.

8. LIQUIDITY & CONNECTIVITY

8. Liquidity & Connectivity

8.1 Liquidity Providers

CubeX aggregates liquidity from a diversified pool of tier-1 and tier-2 providers, ensuring competitive pricing, deep book depth, and resilience during market stress events.

Provider Type	Examples	Assets Covered
Tier-1 Prime Banks	JPMorgan, Deutsche Bank, Citi, HSBC	FX, Fixed Income, Metals
ECN/MTF Venues	EBS, Reuters Matching, Currenex	FX, Crypto
Regional Prime Brokers	FXCM Prime, Saxo Markets	FX, CFDs, Equities
Crypto Exchanges	Binance, Coinbase Prime, Kraken	Crypto Spot & Perps
Equity DMA	NYSE, NASDAQ, LSE (via IRESS)	Equities, ETFs

8.2 FIX API Specifications

The CubeX FIX API supports FIX 4.4 and FIX 5.0 SP2. The following session types are available: Price (MarketData), Order (NewOrderSingle, CancelRequest, ModifyRequest), and Drop Copy (trade replication).

Parameter	Value
FIX Version	FIX 4.4 / FIX 5.0 SP2
Connection	TCP/IP over TLS 1.3
Default Port	5001 (Price) / 5002 (Order) / 5003 (Drop Copy)
Heartbeat Interval	30 seconds
Session Times	Sunday 22:00 – Friday 22:00 UTC
Logon Auth	SenderCompID + Password (SHA-256 hashed)
Max Order Rate	100 orders/second per session
Price Depth	20 levels (top of book default)
Latency (colo)	< 1ms acknowledgement

8.3 WebSocket & REST API

REST Base URL:

`https://api.cubexenterprises.com/v2/`

WebSocket Endpoint:

`wss://stream.cubexenterprises.com/v2/realtime`

Endpoint	Method	Description
/auth/token	POST	Obtain JWT bearer token
/accounts/{id}/balance	GET	Retrieve account balance & equity
/orders	POST	Place new order
/orders/{id}	DELETE	Cancel pending order
/orders/{id}	PUT	Modify pending order
/positions	GET	List all open positions
/positions/{id}/close	POST	Close specific position
/instruments	GET	List all tradable instruments
/instruments/{sym}/quote	GET	Get current bid/ask for symbol
/reports/trades	GET	Download trade history (CSV/JSON)
/chatbot/query	POST	Chatbot integration endpoint

9. COMPLIANCE & REGULATION

9. Compliance & Regulation

9.1 Regulatory Framework

CubeX Enterprises operates under the regulatory umbrella of GrowMore Solutions (Pvt) Ltd and its licensed partners. Clients are onboarded only through regulated broker entities. CubeX as a technology provider supports compliance with the following frameworks:

Regulation / Standard	Region	Application
ASIC RG 264	Australia	Margin lending and CFD disclosure obligations
MiFID II / MiFIR	European Union	Trade reporting, best execution, product governance
ESMA Guidelines	EU / EEA	Leverage restrictions, margin requirements
SEC / FINRA	United States	Equity and options compliance (where applicable)
ISO 27001	Global	Information security management certification
PDPA 2022	Sri Lanka	Personal Data Protection Act compliance
GDPR	EU	Data processing and subject rights management
FATF Recommendations	Global	AML/CFT risk-based approach

9.2 KYC / AML Requirements

All clients must complete Know Your Customer (KYC) verification before trading. CubeX's KYC module is integrated with leading identity verification providers and supports automated screening against global sanctions lists.

IDENTITY DOCUMENT	Valid government-issued photo ID: Passport, National ID Card, or Driver's Licence
ADDRESS PROOF	Utility bill, bank statement, or official government letter (issued within 90 days)
ENHANCED DUE DILIGENCE	Required for PEPs (Politically Exposed Persons), high-risk jurisdictions, and deposits > \$10,000
SANCTIONS SCREENING	Automated screening against UN, OFAC, EU, and UK sanctions lists on onboarding and ongoing basis
TRANSACTION MONITORING	Real-time AML engine flags unusual patterns including structuring, layering, and rapid fund movement
REPORTING	Suspicious Activity Reports (SARs) filed with the Financial Intelligence Unit (FIU) of Sri Lanka as required

10. TECHNICAL SUPPORT & SLA

10. Technical Support & SLA

10.1 Support Tiers

Tier	Scope	Channel	Hours
Tier 1	General usage, account queries	Chat, Email, Ticket	Mon–Sat 08:00–20:00
Tier 2	Technical issues, API integration	Phone, Email, VPN	Mon–Sat 08:00–20:00
Tier 3	Infrastructure, critical incidents	Direct hotline, Slack	24 / 7 / 365
Dedicated	Institutional / Prime accounts	Named engineer + Slack	24 / 7 / 365

10.2 SLA Commitments

Metric	Target	Critical Target
Platform Uptime	99.9% (monthly)	99.95% (annual)
Ticket Initial Response	< 4 business hours	< 1 hour (P1)
P1 Incident Resolution	< 4 hours	Best effort < 1 hour
P2 Incident Resolution	< 8 business hours	< 4 hours
P3/P4 Resolution	< 5 business days	< 2 business days
Planned Maintenance Window	Sundays 00:00–04:00 UTC	Prior notice 72h
Price Feed Latency	< 50ms (standard)	< 5ms (co-located)

10.3 Incident Severity Definitions

Severity	Definition	Example
P1 Critical	Complete platform unavailability or data loss	Trading halted, all clients affected
P2 High	Major feature unavailable, significant client impact	Order execution failing for 1 account tier
P3 Medium	Degraded performance, workaround available	Slow order confirms, delayed price updates
P4 Low	Minor issue, no trading impact	UI cosmetic bug, report formatting error

11. CHATBOT INTEGRATION GUIDE

11. Chatbot Integration Guide

11.1 Chatbot Architecture

CubeX provides a structured knowledge base and REST API specifically designed for AI chatbot and virtual assistant integration. The chatbot layer allows broker websites, mobile apps, and messaging platforms (WhatsApp, Telegram, Web Chat) to surface trading information, account data, and support routing through a conversational interface.

Chatbot API Endpoint

POST <https://api.cubexenterprises.com/v2/chatbot/query>

Headers: Authorization: Bearer {jwt_token}, Content-Type: application/json

Body: { "session_id": "uuid", "user_id": "string", "query": "string", "context": {} }

Response: { "intent": "string", "answer": "string", "confidence": 0.0–1.0, "escalate": bool }

11.2 Intent Categories

Intent Category	Sub-Intents	Data Source
Account Information	balance, equity, margin, open_positions	Live API
Trading	open_trade, close_trade, modify_order, history	Live API
Pricing	current_spread, bid_ask, swap_rate, commission	Price Feed
Platform Support	login_issue, mt4_setup, api_error, download	Knowledge Base
Compliance & KYC	document_upload, kyc_status, aml_query	CRM
Deposits & Withdrawals	deposit_method, withdrawal_status, fee_query	Payments API
Company Information	contact, location, hours, about_us	Static KB
Market Information	market_hours, instrument_info, news_event	Market Data
Escalation	speak_to_agent, complaint, urgent	CRM / Tickets

11.3 Sample Q&A; Reference (Training Data)

The following Q&A; pairs are provided as verified training data for the CubeX chatbot. All answers reflect current platform policies as of the document version date.

Company & Contact

Q: What is CubeX Enterprises?

A: CubeX Enterprises is an institutional trading technology company providing white-label brokerage platforms, multi-asset liquidity, and broker enablement solutions across Asia-Pacific. It operates under GrowMore Solutions (Pvt) Ltd.

Q: Where is CubeX Enterprises located?

A: Our head office is at 3rd Floor, 3A-1/3, 2nd Lane, Meegha Watta Road, Delkanda, Nugegoda, Sri Lanka.

Q: How can I contact CubeX Enterprises?

A: You can reach us at info@growmoresolutions.lk, call +94 11 2 804 924 or +94 11 2 804 925, or visit www.growmoresolutions.lk. Support is available Mon–Sat 08:00–20:00 GMT+5:30.

Q: What are your business hours?

A: Technical Support and Customer Service are available Mon–Sat 08:00–20:00 GMT+5:30. Accounting operates Mon–Thu 09:00–17:00 and HR Mon–Fri 09:00–18:00. Critical technical issues are supported 24/7 via Ext 2.

Q: Who is the parent company of CubeX?

A: CubeX Enterprises is a brand of GrowMore Solutions (Pvt) Ltd, registered in Sri Lanka.

Accounts & Onboarding

Q: What account types do you offer?

A: We offer four tiers: Starter (\$500 min), Professional (\$5,000 min), Prime (\$25,000 min), and Institutional (\$100,000+ min). Each tier offers increasing leverage, tighter spreads, and dedicated support.

Q: What is the minimum deposit?

A: The minimum deposit depends on your account tier. The Starter account requires \$500, Professional requires \$5,000, Prime requires \$25,000, and Institutional accounts start at \$100,000.

Q: How long does onboarding take?

A: Starter accounts are onboarded in 1 business day. Professional in 2–3 days, Prime in 3–5 days. Institutional timelines are customised. All onboarding requires completed KYC verification.

Q: What documents are needed for KYC?

A: You need a valid government-issued photo ID (passport, national ID, or driver's licence) and proof of address (utility bill or bank statement issued within 90 days).

Q: Do you offer white-label platforms?

A: Yes. Prime and Institutional accounts include white-label platform access. We customise the UI, logo, domain, and can add custom instruments. Contact sales for details.

Trading & Orders

Q: What markets can I trade?

A: CubeX supports Forex (70+ pairs), Stock CFDs (500+), Index CFDs, Commodities, Cryptocurrencies (50+), and Fixed Income products — over 800 tradable instruments in total.

Q: What is the maximum leverage offered?

A: Maximum leverage varies by account tier and instrument. FX Majors go up to 1:400 on Prime/Institutional. Crypto is capped at 1:5. Leverage restrictions may apply based on regulatory jurisdiction.

Q: What order types are supported?

A: We support Market, Limit, Stop, Stop-Limit, Trailing Stop, OCO, If Done, Good Till Cancelled, Good Till Date, Fill or Kill, and Immediate or Cancel orders.

Q: What is a margin call?

A: A margin call is an automated alert triggered when your account equity falls to 50–80% of used margin (depending on instrument). It warns you to add funds or close positions before the stop-out level is reached.

Q: What is the stop-out level?

A: Stop-out occurs when equity falls to 20–50% of used margin (varies by instrument). At stop-out, positions are automatically closed from the largest loss first to prevent further losses.

Q: Does CubeX support hedging?

A: Yes. You can hold simultaneous long and short positions in the same instrument. Both legs attract independent margin and swap charges.

Fees, Spreads & Payments

Q: What are the spreads on EUR/USD?

A: EUR/USD raw spread starts from 0.0 pips on Professional accounts and above. Standard (Starter) accounts have a 1.0 pip spread built in with no commission.

Q: What payment methods do you accept?

A: We accept Bank Wire, Credit/Debit Cards (1.5% fee), USDT (TRC-20 and ERC-20), Bitcoin, and local bank transfers in LKR for Sri Lankan clients.

Q: Are there any deposit fees?

A: Bank wire and local LKR transfers are fee-free. Credit/debit cards attract a 1.5% processing fee. Cryptocurrency deposits pay the applicable network gas fee only.

Q: How long do withdrawals take?

A: Bank wire withdrawals take 1–3 business days. Card refunds take 3–5 business days. Crypto withdrawals are processed within 2 business hours after approval.

Q: What are swap rates?

A: Swap (rollover) rates are the overnight financing charge or credit applied to positions held past 22:00 GMT. Rates vary by instrument and direction. Triple swap applies on Wednesdays to cover the weekend.

Platform & Technical

Q: What platforms does CubeX support?

A: CubeX offers its proprietary web and mobile platform, plus MetaTrader 4 (MT4) and MetaTrader 5 (MT5) integration for brokers that require them. FIX API is available for institutional clients.

Q: What APIs are available?

A: We offer FIX 4.4/5.0 for institutional order flow, REST API (JSON) for account management and trading, and WebSocket for real-time streaming prices and order updates.

Q: What is the platform uptime SLA?

A: CubeX guarantees 99.9% monthly platform uptime with N+1 redundancy across Equinix data centres in London, New York, and Tokyo. Planned maintenance occurs Sundays 00:00–04:00 UTC with 72 hours notice.

Q: How do I reset my password?

A: Use the 'Forgot Password' link on the login page. A reset link will be sent to your registered email. If you cannot access your email, contact support@growmoresolutions.lk with your ID for manual verification.

Q: Is there a mobile app?

A: Yes. CubeX offers iOS and Android mobile apps. Minimum requirements are iOS 14 or Android 10. Download links are available in the Client Portal or contact support for the broker-branded version.

11.4 Escalation Flows

Trigger Keyword / Intent	Action	Routing Target
'speak to agent', 'human help'	Transfer to live chat queue	Customer Service Ext 4

```
{ "intent": "pricing.spread", "answer": "EUR/USD raw spread is 0.0 pips on Professional accounts.  
Peak hours: 0.1-0.3 pips.", "confidence": 0.97, "escalate": false, "suggested_actions": ["View full  
spread table", "Open a trade"] }
```

12. GLOSSARY OF TERMS

12. Glossary of Terms

Ask

The price at which you can buy an instrument. Also called the offer price.

Bid

The price at which you can sell an instrument.

CFD

Contract for Difference — an agreement to exchange the difference in value of an asset from open to close.

ECN

Electronic Communications Network — a system that matches buy and sell orders from multiple participants.

Equity

Account balance plus or minus any floating (unrealised) profit or loss on open positions.

FIX Protocol

Financial Information eXchange — the industry standard messaging format for financial transactions.

Hedging

Holding opposite positions in the same instrument to reduce directional exposure.

KYC

Know Your Customer — the process of verifying client identity before onboarding.

Leverage

The ability to control a large position with a small amount of capital. Expressed as a ratio (e.g., 1:100).

Liquidity

The ease with which an asset can be bought or sold without significantly affecting its price.

Lot

A standardised unit of trade. 1 standard lot = 100,000 units of base currency in FX.

Margin

The amount of capital required to open and maintain a leveraged trading position.

Margin Call

A notification when account equity falls to a defined percentage of used margin, warning the trader to add funds or reduce positions.

MT4 / MT5

MetaTrader 4 / 5 — popular third-party trading platforms often integrated with broker platforms.

Pip

Percentage in Point — the smallest standard price movement. For EUR/USD, 1 pip = 0.0001.

Requote

When a broker offers a different price than initially requested due to fast-moving markets. CubeX's STP/ECN model minimises requotes.

Rollover/Swap

The overnight interest charge or credit applied to positions held past the daily cut-off (22:00 GMT).

SLA

Service Level Agreement — a defined commitment for uptime, response, and resolution times.

Slippage

The difference between the expected trade price and the actual execution price in fast markets.

Spread

The difference between the Bid and Ask price. The broker's primary source of revenue on commission-free accounts.

STP

Straight-Through Processing — orders are passed directly to LPs without dealing desk intervention.

Stop-Out

Automatic closure of positions when account equity falls below a set margin percentage threshold.

Swap-Free Account

An account type where overnight swap charges are replaced by an administration fee. Common for Islamic finance compliance.

Trailing Stop

A dynamic stop-loss order that moves with the market price by a fixed distance to lock in profits.

White-Label

A fully branded platform provided by CubeX but operating under the client broker's own brand identity.
